

# **MGB's Role in LGU support in Extractive Monitoring and Reporting**

# Key Roles and Responsibilities of the MGB:

**1. Technical Assistance and Guidance:** The MGB provides technical assistance and guidance to LGUs on matters related to mining and geological concerns. This includes helping LGUs understand and implement national mining policies, laws, and regulations.

# Technical Assistance and Guidance:

MGB-CAR Personnel conducting lectures on Republic Act No. 7942 or the Philippine Mining Act and Republic Act No. 7076 or the People's Small Scale Mining Act of 1991, and their respective IRRs, together with the LGUs and PNP of Ifugao to further capacitate them on their roles and responsibilities in relation to mining especially small-scale and sand and gravel.

# Key Roles and Responsibilities of the MGB:

**2. Regulatory Oversight:** The MGB ensures that mining operations comply with national environmental and safety standards. They collaborate with LGUs to monitor and enforce compliance with these standards, ensuring responsible and sustainable mining practices.

# Key Roles and Responsibilities of the MGB:

**3. Capacity Building:** The MGB conducts training and workshops for LGUs to enhance their capacity to monitor and regulate mining activities effectively. This helps LGUs develop the necessary skills and knowledge to manage mining operations within their jurisdictions.

# Key Roles and Responsibilities of the MGB:

**4. Monitoring and Inspection:** The MGB, in coordination with LGUs, conducts regular inspections and monitoring of mining sites to ensure compliance with environmental laws and regulations. They also assess the implementation of environmental management plans by mining companies.

# Monitoring and Inspection:

Conduct of monitoring and validation of Declared Minahang Bayan Sites and LGU-issued SAG Permits.

# Key Roles and Responsibilities of the MGB:

**5. Conflict Resolution:** The MGB assists in resolving conflicts between mining operations and local communities. They mediate disputes and ensure that mining operations do not adversely affect the rights and welfare of local residents.

# Conflict Resolution:

Assistance on the resolution of conflicts among SSM-related issues within the Barangay of Ucab, Itogon, Benguet.

# Key Roles and Responsibilities of the MGB:

**6. Public Information and Awareness:** The MGB works with LGUs to disseminate information to the public about the impacts and benefits of mining activities. They engage with local communities to raise awareness about responsible mining practices and the importance of environmental protection.
