# Context

---

- Hundreds of millions in **royalty payments** from extractive and non-extractive industries with CPs and **other Income** have flowed to ancestral domains but these income stream **has not led to fair redistribution** and **smart re-investments**
- There is an **urgent challenge to improve governance and management** but, at the first instance, the **NCIP needs to enhance its policy guidance and technical support**. Otherwise, concerned ICCs/IPs face the risk of abandonment of the ADSDPP and unsustainable (if not irregular) utilization of royalty income and other Income .

# Statement of the Problem

**1. Administrative Order No. 3, s. 2012 - Revised FPIC Guidelines and Other Related Processes of 2012;**
